

Lesson Plans

August 21-25, 2017

Welcome to 4th Grade! This week we continue working on various pre-testing in reading, writing, and word sort. We will be spending a lot of time getting to know each other, talking about books, and practicing good work habits.

Your child will have word sort words this year to study each week. They will be sent home on Monday and tests will be given on Friday. Look for this to begin after Labor Day.

I will also be sending a reading log home with your child. Ideally, I would like to see them reading each night and recording their time spent and the pages read. They will also be using that log in school so it is very important that they have it at all times.

Please contact me if you have any questions.
